TOTAL CRIME INDEX 2011

For the second year in a row the Total Crime Index in the City of Kankakee saw an increase. The Total Crime Index increased 12% in the year 2011, compared to 2010. The Total Crime Index is comprised of the crimes of MURDER, CRIMINAL SEXUAL ASSAULT, AGGRAVATED ASSAULT / BATTERY, BURGLARY, THEFT, AUTO THEFT, and ARSON. Our Total Crime Index number at 1562 is significantly lower than 1991 where the number was 4219. These numbers are derived from the sum of all the above listed crimes.

These numbers still show that at 1562 we are well below the mark of 1852 which was posted in 2001. Again this year we can attribute the rise to the declining economy, and the rise in local unemployment to 10%. The categories that showed an increase were: Robbery at one hundred ten (110), up from 2010 at ninety nine (99), Aggravated Assault/Battery at ninety nine (99) in 2010, up to one hundred eight (108) for 2011, Burglary three ninety one (391) up from three thirty nine (339) in 2010, Theft eight forty nine (849) up from seven forty one (741) in 2010, and Arson at sixteen (16) from eleven (11) in 2010. Together, these increases combine to show our 12% increase for 2011.

Four (4) Murders occurred in the City of Kankakee in the 2011 year, this remains the same as the total number for 2010. In the last 10 years 2001 to 2011, there have been 34 Murders, an average to 3.5 murders per year. The 10 years prior from 1991 to 2001 there were 112 murders during the 10 year period, an average of 11.2 murders per year. We are significantly down from the previous 10 year period. These numbers indicate that the community truly is working in unison with the Police Department remaining vigilant in their neighborhoods and on their streets. Point in fact, the murder of Joseph Buckner in the 600 block of S. Lincoln Ave., on November 25, 2011. The residents of the City of Kankakee should be proud of their assistance in helping quickly solve this horrific crime. In the days that followed the murder, the phones rang off the hook in the Detective Bureau with leads and information that eventually lead to the arrest of the suspects 3 days after the shooting. Community Based Policing does make a difference.
