ELECTRICAL

Ruder Electric offers a full range of electrical contracting services, all delivered at a fair price, timely and within your budget. With over 10 years of experience, Ruder Electric has become the leader in the area for delivering personal service and electrical solutions for companies large and small.

Every job includes a thorough evaluation of the problem or challenge, a detailed proposal with estimates of costs and time lines and our guarantee of getting the job done right.

Our highly skilled workforce and exceptional service allows us to complete your job with complete satisfaction the first time and every time. From new construction to remodels or additions, Ruder Electric offers a complete line of electrical contracting services.

We offer integrated electrical controls for companies and we use only the best products to complete this task. This saves our customers time and money, we hear it all the time!

Being a local contractor allows us to send a team of experts when you need us. We are always available and extremely proud of the fact that we get job the done right and on time, every time! Absolute customer satisfaction is the only acceptable outcome. No other local company offers our level of quality service and still offers the customer a competitive price.

COMMUNICATIONS

Ruder Communications was founded on the principals of offering it's clients a solution to all their communications needs.

We have the research and can offer your company a complete line of the industries leading communication products. We will meet and evaluate your companies daily communication needs and also identify your companies expanding needs of tomorrow.

CLOSED CIRCUIT TV SECURITY SYSTEMS

We offer an integrated approach and a complete range of specialized state-of-the-art products and systems for standard or customized applications and projects.

Our product portfolio consists of closed circuit television (CCTV) including access control systems, intrusion detection and control, fire alarm systems, security management systems, public address/voice evacuation systems and conference systems.

CUSTOMER SERVICE

Our personal customer service and industry leading warranties sets us apart from other companies. We work with you to make sure you will get the most out of your communication network application. Our job is to be sure you have the correct tools to work with so your company can run effectively and profitably.
